available!**

**Sign up for our Pet Portals by giving us your email address and you will gain 24/7 access to your pets records and our online store!**

**Payment Options:**

- For some treatments or hospitalized care, a deposit is required, and we will notify you of the amount before the pet begins treatment.
- We are happy to provide all the necessary documentation to clients with pet insurance so they may submit a claim to the insurance carrier.
- We require full payment at the time that services are rendered. For your convenience, we accept Visa, MasterCard, Discover, American Express, Care Credit, and cash. No checks.

**Appointment policy**

- To allow ample time for all patients and scheduled surgical procedures, we operate primarily by appointment. Emergency cases shall always receive top priority, which is why occasional appointment delay is inevitable.
- For convenience drop off appointments are available. Drop off means the client can bring their pet at the time that works best for them and leave him/her with us for a couple of hours. Usually we will ask them to drop the pet off sometime in the morning so our doctors can examine the patient in between appointments and surgeries.
- Surgeries must be scheduled in advance. Surgery drop off time is between 7 - 8 am. All surgery patients except for exotic pets must not eat past 8 pm the night before their scheduled surgery. Clients need to allow at least 5 minutes during their surgery drop off to fill out paper work.
- The client must at least call to cancel appointment, boarding reservation, or surgery. If this is not done, and the client fails to show up for their scheduled visit then a fee will be assessed to their account.

**Prescription policy**

- Please give us at least 1 hour to refill your prescriptions. You can call them in via phone or email us at [ask.jennifer@suburbiavet.com](mailto:ask.jennifer@suburbiavet.com) or request a refill through your pet portal.
- We must have a current heartworm test on all canines in order to refill heartworm medication. Heartworm medicine IS A PRESCRIPTION.
