

Northeast Veterinary Hospital

Boarding Policy

We have established the following guidelines to ensure a healthy and happy environment for your pets while they stay with us:

VACCINE REQUIREMENTS FOR DOGS:

All dogs must be up to date on Canine Distemper, Bordetella, and Rabies vaccinations

1. Canine Distemper combination (DHPP) required every year in adult dogs
2. Bordetella required every 6 months
3. Rabies required in all dogs 16 weeks and older.
4. Leptospirosis recommended every year in at risk dogs

VACCINE REQUIREMENTS FOR CATS:

All cats must be up to date on Feline Distemper and Rabies vaccinations

1. Feline Distemper combination (FVRCP) required every year in adult cats
2. Purevax Rabies required every year in cats. A 3-year Rabies vaccine is available and approved in cats, but is not recommended by NEVH.
3. Feline Leukemia (FeLV) recommended every year in at risk cats

Proof of vaccinations must be present at the time of boarding; otherwise Northeast Veterinary Hospital maintains the right to vaccinate any animal at the expense of their owner.

HELPFUL INFORMATION ABOUT BOARDING YOUR PET

1. We are happy to provide blankets and towels for your pet, but we are unable to accept bedding from home. Personal toys are allowed with the understanding that we are not responsible if they are lost.
2. Please remove all collars and leashes when you leave your pet for boarding. NEVH does not accept responsibility for any lost or misplaced leashes or collars.
3. All boarding animals must be free of fleas. If fleas are present, medicine to kill the adult fleas will be given, and you will be charged accordingly.
4. Always inform the staff in writing of any special requests or dietary requirements that your pet may have. Please bring all medications that your pet needs during their stay. If your pet requires a special diet that is not present at NEVH, please bring that specific food with you.
5. If your pet requires medication while boarding, you may be charged each time a medication is administered.
