## Boarding Guidelines and Informed Consent

Due to the impersonality of our "self serve" society, the requests for in-hospital boarding have increased. Most clients feel more comfortable with the conditions of cleanliness and personal care their pets will receive in our facility.

A STRICT set of guidelines has been designated in an attempt to assure the health, happiness and safety of all pets during their stay with us.

The following medical requirements MUST BE CURRENT AND/OR FULFILLED BY ALL CANDIDATES FOR BOARDING. (Preferably prior to admittance or will be initiated upon admittance.) A current certificate of vaccinations is required for all boarders.

We are to use all reasonable precautions against injury, escape or demise of your pet, but will not be held responsible in any form what so ever.

All animals admitted must be free of external parasites, i.e. fleas, ticks, etc. or they will be treated for an additional fee.

The owner shall be held responsible for any and all medical treatments and professional fees incurred should your pet require treatment, based on the judgment of the attending veterinarian. There is a charge of \$4.00 per day for administering medication. There may be additional charges for pets that require additional care such as ear cleanings, bandage changes, etc., or unruly pets. Additional charges of 4.00, 10.00, or 14.00 per day may apply. Please ask your technician if these charges are applicable.

A sedative will be administered if and when needed due to disruptions of hospital patients or excessive separation anxiety.

Boarding fees do not include pre-discharge bathing. Should you desire a bath or nail trim for your pet while it is here boarding, please notify a receptionist or a technician before leaving.

***Pets will be admitted and discharged only during regular hospital hours.***

After carefully reading the above, I have signed in agreement.
