Oral Hygiene Products

Periodontal disease affects an estimated 85% of pets over the age of three. Don't let your pet become a statistic, help prevent dental disease.

Toothbrush Kits

The best way to prevent dental disease! Daily brushing using a pet-safe toothpaste is the number one way to prevent plaque and tarter build-up. Toothpaste is available in a variety of flavors to keep even the pickiest pet happy.

Drinking Water Additives

A flavorless or lightly flavored liquid that is added daily to your pet's drinking water and contain specially formulated enzymes that help to remove plaque and inhibit nasty odor causing bacteria.

Perio-Support Powder

An easy to use power that is sprinkled over your pet's food. Perio-Support contains natural ingredients and probiotics to help maintain clean teeth, fresh breath and healthy gums. Its great taste and smell make it a popular product for even the most picky eaters.

Dental Chews

Healthy teeth can be as simple as giving your pet a daily treat. These specially formulated chewies are coated with a chlorhexadine solution that helps reduce plaque and tarter.
