Adult Pet Care Plans

Adult Pets (over 6 months)

Did You Know?

Comprehensive physical examinations for your pet are the foundation for Adult Pet Care Plans. You wouldn't go 20 years with no medical, dental or optical care, so why should your pet? Your pet ages between 6 to 10 years for every year you age. This means that if your pet goes the next two years without a complete examination, it would be the same as if you didn't see a doctor, dentist or optometrist for 20 years.

What are Adult Pet Care Plans?

An Adult Pet Care Plan will provide comprehensive and preventive care for your Pet. This plan will keep your pet healthier and will maximize its life span. So, sign up for an Adult Pet Care Plan to receive a 50% discount and make monthly installments.

Adult Pet Care Plans cover:

- Free Office calls for your pet for life
- Annual vaccine boosters
- Lab tests
- Discounts on other services

Enrollment is easy:

Come into Dunham Animal Hospital so we can discuss how the Plans will improve the health and fitness of your pet. With your doctor, evaluate the Plans and decide which Plan will be the most beneficial for your pet's health needs. Then, simply sign an agreement and help your pet live a healthier and longer life.

We have special plans for puppies and kittens, too!

A Perfect Plan for Every Pet

The following guide is a starting point to help you decide which plan is best for you and your Pet. Please refer to each plan's agreement form for a complete listing of services, or ask us for help!
