COMPLETE CANINE WELLNESS ANNUAL: Physical exam for all classifications that includes dental evaluation, fecal exam, heartworm test, flea and tick checkup, appropriate blood tests depending on dog's age and geographic location

¹Greene CE, Schultz RD. Chapter 100 - Immunoprophylaxis. *Infectious Diseases of the Dog and Cat*. 3rd ed. Philadelphia: WB Saunders Co.; 2006: 1080. | ²Antigens recommended for protection may vary depending on dog's geographic location.

CANINE VACCINATION PROTOCOL SHEET

“Core” Vaccines are those which are recommended by AAHA for all puppies and dogs against **diseases of significant morbidity and mortality and wide geographic distribution.**³

“Non-Core” Vaccines are those which are recommended by AAHA for all puppies and dogs in special circumstances, dependent on the exposure risk of an individual animal against **diseases that are generally self-limiting or readily responsive to treatment**³
