

**BERRY HILL VETERINARY CENTER
ANESTHESIA/SEDATION ADMISSION FORM**

Date: _____ **Owner's Name:** _____

Number(s) you can be reached at today: _____

Emergency contact number, in case we are unable to reach you: _____

Patient: _____ **Procedure:** _____

Did your pet eat this morning? Yes No Last dose of flea control – date/product _____

Is your pet taking any medication? No If yes, please list: _____

Does your pet have any medical conditions? No If yes, please list: _____

All patients who undergo anesthesia are given a pre-anesthetic physical examination.

Any specific problems you would like us to evaluate? Please list: _____

Optional Pre-anesthetic Testing: Our caring staff wants to ensure your pet's well-being. A veterinarian will perform a comprehensive physical examination prior to anesthetizing your pet. However, many disorders of the kidneys, liver, and blood cannot be detected without blood tests. Therefore, we recommend pre-surgical blood work prior to anesthesia. **A more comprehensive panel is required for patients older than 6 years of age.**

- Accept pre-anesthetic blood work < 6 years old (\$39.50) Decline blood work (**patient < 6 yrs. old**)

***We offer a more in depth panel sent out to our lab at the same price. Please schedule an appointment prior to surgery for this panel.*

IV Catheter: An intravenous catheter and fluids is recommended to help maintain blood pressure, eliminate anesthetic drugs and facilitate administration of emergency treatments if needed.

- Accept IV catheter/fluids (\$50.00) Decline IV catheter/fluids

Elective Procedures:

- Microchip Identification (\$50.50) – Includes registration
 Apply flea prevention (\$17.50-\$18.50)
 Flush/clean ears (\$19.50)

For the safety of your pet and our other patients, we will apply flea prevention if needed – initial _____

We routinely trim your pet's nails & check/express anal glands at no charge – to decline- initial _____

Vaccinations/tests:

- Fecal exam \$39.50
 Rabies \$21.10

Dog

- Bordetella \$21.40
 DHPP \$21.40
 Heartworm test \$25.00

Cat

- FVRCP \$19.10
 FeLV \$24.00
 FeLV/FIV/HW \$40.00

Anesthetic Monitoring: A small area may be shaved on the underside of a paw for placement of the doppler, a device for monitoring your pet's heart rate and blood pressure while anesthetized. We also monitor heart waves with an EKG and oxygenation with a pulse oximeter.

*** Dentals Only:** There are occasions when tooth extractions are necessary, but not apparent until the patient is under anesthesia. Our staff will attempt to contact you if an extraction is deemed necessary, but we ask you to give consent in case you cannot be contacted.

- I give permission to perform any necessary extractions.

Consent for anesthesia: I understand and accept that, when anesthesia is involved, there are always inherent risks, including death, and no guarantee has been either expressed or implied regarding complications or outcome. Furthermore, in the event of an emergency, I authorize the doctor & staff of this facility to perform any procedures deemed necessary until further communication with me. I will not hold the doctor or staff liable for any complications. I certify that I understand this release, and the procedure/s have been explained to my satisfaction and I assume full financial responsibility of charges accrued.
