Pre- Anesthetic Blood Screening

Like you, our greatest concern is the well-being of your pet. Physical examination will be performed before sedating your pet. However, many conditions, including disorders or the *liver, kidneys, and blood* cannot be detected without blood testing. For these reasons, we highly recommend blood screening for pets of all ages before sedating your pet. The cost of these tests for under 7 years of age is \$120 and 7 years of age and older is \$150.

- () I approve blood testing for my pet.
- () I decline blood testing. Initial _____
- () My pet had blood testing done at his/her pre-surgical appointment.

I understand that all sedation/anesthesia involves some minimal risk to my pet, but Suburbia North Animal Hospital, and/or its agents will not be held liable in any manner whatsoever or under any circumstances in connection therewith, as it is thoroughly understood that I assume all risks. If I am unreachable during a procedure, the Doctor may treat my animal as HE/SHE deems appropriate. I understand that I am financially responsible for any and all charges resulting from requested procedures.
